

# Playoff Setup

You must follow the sequence as outlined [here](#). The playoff schedule cannot be updated once match play has started.

## Setup

<b>Playoff name</b>	If you selected "Division" playoffs, make sure each of the playoffs in the same season has a different name, e.g. Division A, Division B, ...
<b>Playoff bracket</b>	Championship: no brackets, all teams participate in the same playoffs
	Championship A: upper bracket playoffs
	Championship B: lower bracket playoffs
	Division: teams within same division participate in division playoffs
<b>Type of playoff</b>	Regular single elimination playoffs with consolation match (match for 3rd place)
	Regular single elimination playoffs without consolation match
	"within division then division winners" playoffs with consolation match
	"within division then division winners" playoffs without consolation match
	"AFL-style" playoffs with consolation match
	"AFL-style" playoffs without consolation match
<b>Number of teams</b>	Number of teams in the playoffs. Must match the number of assigned teams for the playoffs.
<b>Round # date</b>	Date of playoff round #

- Choose your playoff preferences, then Save.

## Assign Teams

- Check the teams which participate in this playoffs, then Save.

## Schedule

1. Once the teams are assigned, the schedule populates automatically for the 1<sup>st</sup> round, depending on the playoff type chosen.
2. Tap Reset Pairings to remove the generated schedule and enter a manual schedule. This can only be done, as long as no matches have been played in round 1.
3. Tap Save & Close to finish, or Save and then Close.
