

Team Statistics

Team Statistics and Player information.

Team Name

- You find here the team's name, the assigned captain, and the team's home venue and it's location.
- If you are viewing the team's information of a past season you will also find the team's other names it used before, if there are any.

Player List

- All players who have played at least one game for the team during the displayed season are listed.
- It lists the current player's rating, and how many single games, double games, and weeks the player has played.
- If the league operators have enabled extended information to display, then it also lists the player's win ratio, usage, season start rating, and the rating change from season start to actual rating in the season.
- *Usage* indicates the total number of games played divided by the number of weeks played for each player. Select the **Regular season only** checkbox for *Usage* to calculate regular season matches only, not including tournaments and playoff games.

Match schedule and results

- If the league operators have enabled the match schedule and results to display, then the team's matches will list with results of the matches already played.
- The information shown is the same as shown in the [team schedule](#) view.
