

# Season Edit

Start a new season or edit an existing season.

## Edit

1. Enter or modify names of Divisions in the Division view.
2. Enter or modify names of Venues in the Venues view.
3. Enter any new teams to the new season in the Teams view.
4. Do not modify team names of existing teams yet.
5. If you have done all of this, tap New to setup a new season, or tap the season you want to modify
6. Do not check "This is the active season" in Season Setup, until you have set up the new season and assigned teams to the season.
7. Enter the schedule manually or upload a schedule file.
8. You can also Delete a season. **You cannot undo a deleted season. All matches, games, and tournaments registered in a season will be deleted and lost forever.**
9. End this activity before making changes with Cancel, or after making changes with Close.

**You cannot modify any data of previous seasons after a new season has been started.**
